Kiilto Care

EriLen

Hair & Body shampoo

#### Range of use

EriLen shampoo is a multipurpose shampoo for washing both hair and body. As part of the Kiilto Care range EriLen is mildly scented and pleasant even in daily use. Package sizes are economical, suitable for professional use and large consumption – in premises such as spas, swimming and sports halls, hospitals, elderly homes etc.

#### Features

Richly foaming, pearly shampoo with a fresh scent is gentle and suitable for all hair types. EriLen contains moisturizing and antistatic agents for improving hair manageability, most often there is no need for use of a hair conditioner. Moisturizing agents also protect the normal moisture balance of skin. EriLen shampoo is easily rinsable. EriLen shampoo is a safe and sustainable choice for the user as well the environment - the product has been awarded with the Nordic ecolabel

#### Dosage/ Instructions for use

Rub a small amount of shampoo on wet hair. Lather and wash the scalp and hair, rinse carefully. If necessary, repeat the procedure. The use of hair conditioner is optional, often not necessary due to the antistatic agents of EriLen. For the body: use as a shower shampoo. Dry the hair and the skin with a clean towel.
